The bachelor's degree (B.S.E) in elementary education unified at the University of Kansas prepares individuals to work in inclusive settings to meet the learning needs of all young children (kindergarten through 6th grade), including those with disabilities.

Program Reputation: KU's program is offered through the top 10-ranked School of Education & Human Sciences.

Study Abroad: Program supports unique opportunities for students to acquire the knowledge, skills & dispositions needed for culturally-responsive professionalism.

Field Experiences, Early & Often: The program combines coursework with field experiences with primary aged children in elementary classrooms.

Nationally Accredited Program: The KU School of Education & Human Sciences is accredited under the NCATE Standards through the Council for the Accreditation of Educator Preparation (CAEP) Accreditation System.
