### **CURRENT RESEARCH**

Current research includes an interdisciplinary investigation of instructional design and technology use throughout PK-20 learning environments as it relates to the learning and instruction of all students but with a particular focus on students with disabilities.

### **CURRENT & RECENT PROJECTS**

#### ***Center for Innovation, Design, and Digital Learning (CIDDL) (PI)***

**2020-Current**

A partnership among University of Kansas, University of Central Florida, CAST, and the Metiri Group. CIDDL is serving as the national center to Improve Faculty Capacity to Use Educational Technology in Special Education, Early Intervention, and Related Services Personnel Preparation and Leadership Personnel Preparation Programs. U.S Department of Education's Office of Special Education (OSEP).

#### ***Project COaching On Learning (COOL) for UDL Implementation (PI)***

**2020-2024**

A partnership among CAST, University of Kansas, Evergreen Evaluation & Consulting. Project COOL will develop, and implement a sustainable coaching model to support systemic, school-wide implementation that leverages Universal Design for Learning (UDL), implementation science, evidence-based practices (EBPs), and high leverage practices (HLPs) to improve academic, functional, developmental, and behavioral outcomes for students with disabilities (SWD) and other high need students.
